https://skills.com

Skills

- Molecular biology techniques.
- Research & Development.
- Data Analysis and Visualization.
- Coding: R and Python.
- Databases: SQL.
- Software version control system: GIT.
- Web development: HTML5, CSS3, Javascript.

https://experience.com

Experience

Agrarian Science Researcher
IICAR-CONICET - SINCE 2017

- Lab conditions: DNA/RNA/protein extractions, PCR, molecular markers, electrophoresis, spectroscopy, gene expression.
- Greenhouse and field conditions: crop production managment, phenotypic evaluation.
- Data analysis and visualization.
- Science communication: web development and social media managment.

Undergraduate teaching assistant
PHYSICAL CHEMISTRY - FBIOYF - NATIONAL UNIVERSITY OF ROSARIO - 2013 -2017

- Leaded and prepared laboratory sessions. Evaluated essays.

https://buildinginpublic.com

Projects

R Dataviz Cheatsheet webpage

- Developed a webpage with plots and R codes for selecting the appropriate chart type for a dataset.

Active stocks analysis

- Created a tool using Python that scrapes data from Yahoo Finance and analyzes it by using animated plots.

#100DaysofCode

- Coded minimum an hour every day for 100 days showing my discipline and commitment.

Biotechnologist and PhD Student in Crop Science. Data Viz lover. Web Dev apprentice. Highly motivated and collaborative. Always learning something!

Education

Master in Biotechnology
SCHOOL OF BIOCHEMITRY AND FARMACEUTICAL SCIENCE - NATIONAL UNIVERSITY OF ROSARIO - 2010 - 2016

Thesis: "Micellar systems as a strategy for primary extraction of industrial proteases".
- Protein purification and enzyme kinectics.
- 1 scientific publication, 2 oral disertations, 7 congresses, 3 courses.

PhD in Agriscience
SCHOOL OF AGRARIAN SCIENCE - NATIONAL UNIVERSITY OF ROSARIO - SINCE 2017

Thesis: "Transcriptomic approach of the genetic bases
for differential fruit quality in tomato near isogenic lines".
- Genetic plant breeding.
- 1 scientific publication, 3 oral disertations, 6 congresses, 17 courses.

Some courses

- Introduction to Python - UNSAM
- Full Stack Python - Codo a Codo
